Brand New Book ***** Print on Demand *****.Excerpt from Care and Feeding of the Infant: Practical Advice for Mothers and Nurses No problem is more absorbing to the mother or the nurse than the details of the care of a new-born infant. Conscientious, painstaking attention is the rule and it is most essential that anything done shall be done right. The care of the eyes of the mouthy of the cord are all simple enough but they can be carried on with great exactness along the wrong lines unless one has knowledge of the correct methods. One can not infrequently trace illness or failure to gain and grow to simply easily remediable faults in the baby s care. Dr. Lyman has brought together with clear insight many of the simple but important facts in the rearing of infants. I feel that his book will be a great aid to nurses and mothers in one of the most beautiful and pleasant duties of life and yet one of the most important and far-reaching. There is a universal appeal in a baby s smiles. We must not be led by it to make merely a plaything of the child.
