Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 Excerpt: .by the advance of that beach toward the land. Taking up the first class of deposits in more detail they are believed to have been formed in the following manner: During the erosion interval which immediately preceded the deposition of the Talbot formation many streams cut moderately deep channels in the land surface, which on the sinking of the region again were transformed into estuaries (Fig. 5). Across the mouths of the smaller of these drowned valleys the shore currents of the Talbot sea rapidly built bars and beaches which ponded the waters behind them and transformed them from brackish-water estuaries to fresh-water lagoons. These lagoons, however, were gradually changed into marshes and possibly to meadows by the inflow of detritus from the surrounding region and on the new land surface thus formed various kinds of vegetation took up Fig. 6.--Diagram showing advancing Talbot shore-line and...
