Excerpt: .in four Medical Officers of Health, for a population of 16,000, and pays each according to services. Louth, rural and urban, are typical districts. The former, with an acreage of 144,372 and a population of 24,260, gives its Medical Officer of Health a salary of 3751.; the latter, with an acreage of 2,560 and a population of 10,500, gives its Medical Officer of Health a salary of 1251. Both elect the same man, who devotes his whole time to his duty. Lyme Regis, urban, with a population of 2,400, pays a Medical Officer of Health half-a-guinea on every occasion it seeks his services. Maryport, with a population of 6,938, remunerates its Medical Officer of Health according to circumstances. The arrangements as to the Medical Officer of Health in the following urban districts we give without comment. Maidstone, population 26,239, 1001.; Middlesbrough, population 50,000, 1251.; Newport, population 30,000, 501.; Worksop, population 10,000, 51.; Oswaldtwistle, population 10,200, 101.; Scarborough, population 24,200, 301. The foregoing facts have been culled pretty much at random from our list. They may be taken in part as illustrating some of the vagaries of local authorities who have repudiated Central interference with their Medical Officers of Health; and in part as showing how some local authorities have turned certain Central advice to good account. Combined Sanitary Districts. The sanitary districts of which we have information, that have been formed by a combination of several sanitary districts, are forty-six in number. These...
