With clear writing--- technical terms kept to a minimum---and a contemporary approach, emphasizing how each doctrine should be understood and applied by present-day Christians, Making Sense of Who God is explores the existence of God through inner knowledge and evidence found in Scripture and in nature. Topics include but are not limited to Traditional 'Proofs' for God's Existence: covering cosmological, teleological, ontological, and moral evidence of the Creator; The Trinity: the three distinct persons each equal to the whole being of God; Creation: including the assertion that, when all the facts are understood, there will be 'no final conflicts' between Scripture and natural science; and God's Providence: the Creator's continued involvement with all created things and human actions that make a difference within God's providence. Written in a friendly tone, appealing to the emotions and the spirit as well as the intellect, Making Sense of Who God is helps readers overcome wrong ideas, make better decisions on new questions, and grow as Christians.
