The AeDib strategy focuses on developing the capability for claimant information and large volumes of medical images, files, and other documents that are currently maintained in paper folders to be stored in electronic folders, and then accessed, viewed, and shared by the disability processing offices. SSA is undertaking five key projects to support the strategy: An Electronic Disability Collect System to provide the capability for SSA field offices to electronically capture information about the claimants disability and collect this structured data in an electronic folder for use by the disability processing offices; A Document Management Architecture that will provide a data repository and scanning and imaging capabilities to allow claimant information and medical evidence to be captured, stored, indexed, and shared electronically between the disability processing offices. Internet applications that will provide the capability to obtain disability claims and medical information from the public via the Internet. A DDS systems migration and electronic folder interface that will migrate and enhance the existing case processing systems to allow the state disability determination services offices to operate on a common platform...

### Reviews

*It in one of the most popular ebook. It usually fails to price an excessive amount of. Its been printed in an extremely basic way in fact it is merely right after i finished reading through this book in which really altered me, change the way i believe.*
