EDUCATION TODAY 2010: THE OECD PERSPECTIVE

Organization for Economic Co-operation and Development (OECD), France, 2010. Paperback. Book Condition: New. 2nd. 229 x 157 mm. Language: English . Brand New Book ***** Print on Demand *****.What does the OECD have to say about the state of education today? What are the main OECD messages on early childhood education, teacher policies and tertiary education? What about student performance, educational spending and equity in education? OECD work on these important education topics and others have been brought together in a single accessible source updating the first edition of Education Today which came out in March 2009. Organised into eight chapters, this report examines early childhood education, schooling, transitions beyond initial education, higher education, adult learning, outcomes and returns, equity, and innovation. The chapters are structured around key findings and policy directions emerging from recent OECD educational analyses. Each entry highlights the main message in a concise and accessible way, with a brief explanation and reference to the original OECD source. This report will prove to be an invaluable resource for all those interested in the broad international picture of education, as well as for those wanting to know more about OECD work in this important domain.
