Mr. Brooks manufactures the vertical pipe return bend radiator, for direct radiation, and Brooks Improved cast iron indirect radiator, of which he makes a specialty, which is of his own patent, and gives better circulation and more heating surface than any other pattern in the market. His trade in steam heating apparatus is large, and in connection with his general foundry business amounts to from 880,000 to \$100,000 per year. He is constantly making additions to his patterns in steam heating apparatus and has one of the largest varieties of improved makes. Parties contemplating the need of steam heating, either for public or private buildings, will receive descriptive circulars and illustrated catalogues which will be to their advantage, by addressing Mr. Brooks, who assures prompt attention. Mr. B. was born in Patriot, Indiana, in 1846, and came to Cleveland one...
