

# Thinking About Harmony: Historical Perspectives on Analysis

Filesize: 9.08 MB

## ***Reviews***

*Thorough information! Its such a good study. Sure, it is perform, still an amazing and interesting literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.*  
(Evie Emmerich)

## THINKING ABOUT HARMONY: HISTORICAL PERSPECTIVES ON ANALYSIS

Cambridge University Press. Paperback. Book Condition: New. Paperback. 342 pages. Dimensions: 9.5in. x 6.7in. x 0.9in. Focusing on music written in the period 1800-1850, *Thinking about Harmony* traces the responses of observant musicians to the music that was being created in their midst by composers including Beethoven, Schubert, and Chopin. It tells the story of how a separate branch of musical activity - music analysis - evolved out of the desire to make sense of the music, essential both to its enlightened performance and to its appreciation. The book integrates two distinct areas of musical inquiry - the history of music theory and music analysis - and the various notions that shape harmonic theory are put to the test through practical application, creating a unique and intriguing synthesis. Aided by an extensive compilation of carefully selected and clearly annotated music examples, readers can explore a panoramic projection of the eras analytical responses to harmony, thereby developing a more intimate rapport with the period. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
