Brand New Book ***** Print on Demand *****.Excerpt from *Descriptive Catalogue of North American Batrachia and Reptilia: Found East of Mississippi River* The students of general herpetology in this country have labored under great disadvantage, as the descriptions of American Batrachia and Reptilia are scattered through many works, which are rarely found except in large scientific libraries. In the following pages an attempt is made to describe, in convenient form, the species found in Eastern North America, and the higher groups to which they belong. The nomenclature and classification used are the same as that adopted by Prof. E. D. Cope in his Check List of North American Batrachia and Reptilia. (Bull. of U. S. Nat. Mus., No. 1.) In order to facilitate the identification of specimens, and in order that the catalogue may be available to the greatest number, when easily recognizable characters did not exist in the natural synopses, they were added in artificial ones. The works of the following authors have been especially useful in preparing the present paper: E. D. Cope, Baird, Girard, Agassiz, Holbrooks, Huxley, Dumeril, Bibron, Gray's and Gunther's British Museum Catalogues, also the reports of the government exploring expeditions, the volumes of the Proceedings of the Philadelphia Academy of Sciences, etc. Many of the synopses have been compiled from the numerous exhaustive articles by Prof. Cope, several of which have been copied in part almost verbatim.
